

Band Information

Crazy Heart Connection – *Creative Blues & Roots Music*

The "Crazy Heart Connection" approaches Music in a creative and vitalizing way, combining original songwriting with their own style of Bluesrock and Roots Music. Over the years the group has developed into to a full band including lead vocalist Daniela Eger, guitarist Sascha Giro, Max Paul on keyboards and a rhythm section consisting of Marc Kambach on drums and Michael "Blacky" Schwartz on bass guitar.

The music takes you on a journey from slow Blues to fast Rock with psychedelic elements and tells stories about intense travelling, restlessness and long midnight hours with a heavy portion of the Blues.

Press Reviews

"The Crazy Heart Connection" was described in a press article in the *Rheinpfalz* as being at their best when playing Blues, Blues - Rock and their own interpretation of American Folk and wild Rock. Their creation of a dense sound, composed of solo sections on piano and guitar, powerful drums and a pulsing bass, was defined as being reminiscent of bands from the 1970s.

"Occasionally The Crazy Heart Connection sounds psychedelic, but above all they are authentic. A must for Blues - Rock enthusiasts (...)" is how they were defined in a recent press article preceding their performance at Zweibrücken Stadtfest July 2019.*
