

## ***Crazy Heart Connection***

The „Crazy Heart Connection“ from Germany combines elements of blues and alternative rock to create its own genuine style that cannot be easily labelled. Wild and authentic tones characterise the band’s style of music and the listener is treated to psychedelic tones that are deeply rooted in rock as well as the raw, soulful expression of the blues. In September 2023, the band released their debut album “New Ways“ on “Kawumm Records“, followed by two single releases „Memories & Dust“ in 2024 and “Help Me“ in 2025. Their new original song „Demons from the Past“ – a title composing elements of progressive and alternative rock - was released in February 2026. The song was recorded and filmed live in the studio to capture its raw and authentic atmosphere, with the official music video available on Youtube.

## ***Press Review***

“The Crazy Heart Connection“ was described in a press article in the *Rheinpfalz* newspaper as being at their best when playing blues, blues rock and their own interpretation of American folk and wild rock. Their creation of a dense sound, composed of solo sections on piano and guitar, powerful drums and a pulsing bass, was defined as being reminiscent of bands from the 1970s.
